Multi Factor Authentication
Application Catalogues

PAM

☑ Dynamic Authorization
☑ Auditing Privileged Access
☒ Remote Connections
☒ Tracking Privileged Sessions

monokee
PURE IDENTITY.

monokee

Product

VIO

The **Visual Identity Orchestrator** is a drag-and-drop interface to build up your processes starting from predefined blocks and connecting them together

MULTI DOMAIN

Through this patented feature Monokee enables digital identities to access domains through a **single authentication process** in a seamless fashion.

SSI-READY

With trends showing that a **decentralised identity** (Self-Sovereign Identity) model is going to become a new standard in the future, Monokee is SSI-ready.
